

Dear Families,

We are excited to announce that your family is now able to access the Everyday Math online tools from any computer that has an internet connection. We hope that you will find both the Online Games and the Interactive Student Reference Book useful for supporting your child at home.

Here is how it works:

- 1) Open Internet Explorer or another web browser and go to [www.everydaymathonline.com](http://www.everydaymathonline.com)
- 2) Click on the **Student Login** button on the top left of the page
- 3) Enter your student's username \_\_\_\_\_
- 4) Then the password grid will show up. Click the number, letter, and shape that make up your student's password. They will turn blue when you select them. Then click **Login**.

Your student's password \_\_\_\_\_

- 5) Then you can choose between using the Online Games or the Interactive Student Reference Book.

### **Online Games**

When you choose the online games, your child can select a grade range and then pick a game from the menu. The games allow students a fun way to practice what they are learning at school.

### **Interactive Student Reference Book**

When you choose the reference book, you can look up math terms in the glossary, search for a topic in the table of contents, or see examples of problems being solved. When you see the open book icon on a math homework assignment, go to the suggested page number in the online reference book to find further explanation and examples.

We hope you find these tools useful in supporting your student at home. Have fun doing math together!
